TOURISM

“FPV drones provide a dynamic and immersive perspective, whether it’s for filming a tour through some facilities, or a close-up shot in an action take, these drones are the right choice.”

- JORGE PEREZ, DRONE PILOT

WHY CHOOSE TK3 FPV?

TEAMWORK

We integrate collaboratively into work teams.

CREATIVITY

We analyze the environment to obtain the most spectacular results.

CIVIL LIABILITY

Our drone fleet is insured to cover third-party damages in case of an accident.

THANK YOU!

EXPERIENCE

We have a wide range of project experience, and we know how to work; we understand the complications involved in professional filming.

INNOVATION

Through FPV drones, dynamic shots are achieved that better retain the user's attention when presenting a product or service.

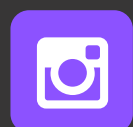

REGULATORY COMPLIANCE

We have all the licenses and necessary equipment to fly throughout the European Union. We know the regulations, and we make sure to have everything in order when carrying out an operation.

PROFESSIONAL EQUIPMENT

We have various drone models, which we design and assemble by selecting the highest quality components, and we choose the most suitable ones for each occasion.
